A screenshot of a 'Register' form on a website. The form title is 'Register' and the sub-title is 'Create an Account'. The form has four input fields: 'Choose a Username' with the value 'brightfuture', 'Email Address' with the value 'brightfuturecoach@gmail.com', 'Password' with five dots, and 'Confirm Password' with five dots. Below the fields is a hint: 'Hint: The password should be at least 5 characters long. To make it stronger, use upper and lower case letters, numbers and symbols like ! " ? \$ % ^ & .'. At the bottom left is a link 'Already have a user account?' and at the bottom right is a blue button labeled 'Register My Account »'.

After your account has been created, go back to www.bright-future.net and click on login.

This site is powered by Wordpress and therefore you will get a Wordpress login box, although it is the Consciousness 101 site (on bright-future.net) that you are logging onto.

Until I figure out how to bypass the profile screen, that will show up first and you can change your profile settings, or go directly to the site by clicking "Consciousness 101" in the upper left hand corner.
